EUROGEO WORKSHOP 2023

BOLZANO 2-4 OCTOBER 2023

Credit: Patrick Griffiths, [Platforms and Data spaces for EUGD](#), EuroGEO Athens, 2022

Key aspects

- EU provides a rich, diverse, and also fragmented digital EO ecosystem
- A centralized infrastructure or governance is not realistic
- Rather: community-based approach through co-creation and co-design of data spaces (JRC report: [European Data Spaces](#))
- EuroGEO provides **Earth Intelligence** for addressing European policy needs, like the Green Deal,
 - Data Space designed, based on requirements.
 - Global upscaling in cooperation with GEO initiatives
