EGW23 - Objectives

GENERAL FEEDBACK - open to all respondents & attendees

How does the EuroGEO link with **national activities** and support shaping a European GEO community?

How do you believe EuroGeo can contribute to the **Geo-post 2025 strategy**? How do you see the new GEO Strategy align with your activities?

How does the term “**Earth Intelligence**” resonate in your community?

Do you believe your **EuroGEO activities are a valuable contribution to the Geo Community**? If so, how, why or what can be done to improve?

Do you find **events** such as these, as valuable opportunities to gather experts or stakeholders in the Geo Community?

SPEAKER & FLASH-TALK FEEDBACK

What are the **three major lessons** learned in your field, which can be used to support others in the Geo Community going forward.

What is the **sustainability plan** of your project? Sustainability can cover many avenues of research continuity, financial sustainability and collaboration networks etc. How do you link this to EuroGEO governance?

About **communication**: Would you be willing to share any figures, pictures, and graphics from your session with the wider community (from the event or with other relevance).

Other comments? If there is anything else you would like to say, we would like to hear from you!
